

F1 Hybrid
Onion Seeds
Varieties for Diverse
Growing Conditions

ABOUT SARA ZADEN

SARA ZADEN is a Türkiye-based seed company specializing exclusively in onion seeds. Our work focuses on F1 Hybrid onion varieties, from field evaluation to seed production. Our F1 hybrid portfolio includes short-day and intermediate-day varieties with different skin colors, bulb shapes, and maturity groups.

We focus on understanding growers' needs and evaluating varieties under local growing conditions. Our aim is to help our partners select onion varieties suited to their regions and markets.

**Specialists in F1
Hybrid Onion Seeds**

transplanting**

CULTIVATION & DATA NOTES

- All entries are F1 hybrids of *Allium cepa* L. Day-length groups indicate adaptation classes; sowing schedules depend on latitude and local climate.
- Storage duration depends on curing, bulb condition and storage environment. The listed month ranges are indicative only and do not constitute guaranteed shelf life.

DISCLAIMER

This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause.
